CHARLY GITANOS: FLAMENCO REBORN – THE POWER OF A REAL LIVE BAND

Charly Gitanos conquers the big stages with his high-caliber six-piece formation, presenting "Flamenco Reborn". This show breaks with all clichés and offers a thrilling live experience that delights both broad festival audiences and sophisticated music lovers alike.

The band functions as a perfectly coordinated unit: the foundation is formed by the driving power of the drums and the modern, atmospheric sounds of the keyboards, which weave perfectly with the Spanish guitars. The result is not a timid mix, but a voluminous, international sound at the highest production level.

The absolute highlight of the show, however, are the two dancers. They take the audience's breath away with their spectacular, virtuoso zapateado, whose percussive force is palpable throughout the room. But their role goes far beyond that: they are true multi-instrumentalists, seamlessly switching to cajón and congas and supporting the band with powerful backing vocals.

The repertoire resembles a roller coaster of emotions: from moments of technical brilliance and modern flamenco to great, world-famous Spanish hits that are guaranteed to create a party atmosphere. Charly Gitanos offers the complete package: musical quality, visual power, and pure *joie de vivre*.
